- b) To be eligible under the Program, a Project must include research team participants from both Institutions. Eligibility to serve as the person responsible for the scientific and scholarly conduct of a Project (the PI) will be determined in accordance with the policies and procedures of the relevant Institution. - e) The funding provided by the Universities is intended to support research expenses, including costs related to funding exchange of researchers (doctoral students, postdocs, faculty members) between the institutions, and direct research costs (performing and analyzing experiments).
